

Expressions of ET Contact

a visual blueprint?

What kinds of ET beings do people see?
 What kind of art, and symbols do they draw?
 Scripts and Language, what do they look and sound like?

Mary Rodwell, RN, Therapist, researcher and Principal of ACERN introduces some of the best audio and visual material from ACERN's database. Incredible artwork, drawings of ET beings, symbols, and scripts drawn by experiencers themselves, and show an integrity of experience, a visual expression of Contact. How and why do 'experiencers' feel impelled to create such unusual artwork and symbolism?

Tracey Taylor an 'experiencer' briefly narrates her story and the process that guides and inspires her drawing of unusual and intricate designs. She explains the symbolism of them and why she feels they act as a trigger to awaken us to further understanding of our origins.

Expressions of ET Contact, like the 'crop circles' may offer another piece of the puzzle in understanding this enigma. This video is a fascinating visual record of Contact in Australia. Playing Time - approximately 52 minutes.
